1. There are no OCM traces on Herbert JOSCH, a refugee from Upper Silesia, reported in November 1953 to be a resident of Berlin-Steglitz, Siemensstrasse 9. JOSCH is suspected by Frau Ella SCHMIDT of the same address of being an Eastern agent because of the sudden improvement in his standard of living.

2. We have cabled ODOPAL for traces although it was not specifically requested in reference.

3. Note to BOB CART: Henceforth please specify ODOPAL traces in the event that you want this service. We have just been informed by OCM Tracing Section that ODOPAL trace requests initiated by memorandum take at least a month for servicing. In cases where priority treatment; i.e., cabled traces, is deemed essential, please so indicate.

Approved: ☐
